Claim Notes

Claim number:	C-1441
Claimant:	Brandon Hernandez
Adjuster:	Darin Tyler

June 23, 2025
Claim reported by the claimant after a rear-end collision at a signalized intersection. The claimant is not represented by an attorney and reports neck pain and stiffness following the impact.

July 4, 2025
Confirmed that the claimant is the named driver on the policy and that coverage was in force at the time of the loss. No issues with the policy status were found.

July 22, 2025
Obtained the statement from the other driver, who describes the vehicle ahead stopping suddenly and the claimant's vehicle striking the rear. Statement is consistent with the initial report.

August 15, 2025
Reviewed photographs taken at the scene and found the rear damage on the claimant's vehicle to be largely in line with the described impact. Minor pre-existing wear was noted but no earlier collision damage is known.

September 1, 2025
Spoke with two witnesses who were at the intersection. Both confirm the sequence of events as decsribed by the claimant and the other driver.

October 3, 2025
Claimant provided a medical report indicating a whiplash-type injury. The reported symptoms and the force of the collision appear to be a reasonable match.

October 6, 2025
Asked the claimant where they were seated in the vehicle at impact. The answer was not fully clear, and the claimant is being asked to clarify the seating position in a follow-up.

October 13, 2025
Claimant's account has remained the same across the initial call, the recorded statement, and the follow-up conversation. No inconsistencies have been identified.

December 22, 2025
Reviewed the treatment records. The care followed a usual course, with physiotherapy and medication, and the frequency of visits tapered as the claimant's symptoms improved. No prior injury to the same body area has been identified in the records available.

January 19, 2026
Reviewed the file with the claim outcome in mind. Nothing suggests the damgae predates the policy start date, and the claim is progressing toward a settlement recommendation pedning the saeting clarification.

Recorded Statement

Claim number:	C-1441
Statement of:	Brandon Hernandez
Taken by:	Darin Tyler
Date:	June 4, 2025

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you reported in Pasadena, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please describe where you were and what you were doing just before the collision.

A: I was driving home from work on a main road in Pasadena. Traffic had slowed down ahead of a light, so I was stopped behind a sedan.

Q: How long had you been stopped when the impact happened?

A: Maybe five or six seconds. I had just come to a full stop when I felt the jolt from behind.

Q: What happened to your vehicle after the impact?

A: It pushed my car forward into the sedan in front of me. Nothing dramatic, but enough that my head snapped back and then forward.

Q: Did you see the other vehicle before it hit you?

A: Only in my mirror, a second before. I didn't have time to react.

Q: Have you had any medical attention since the collision?

A: Yes, I went to an urgent care clinic the same evening. My neck was stiff and sore, and by the next morning I had pain running into my shoulders and a headache.

Q: Are you currently experiencing any of those symptoms?

A: Yes, the neck pain is still there, especially when I turn my head to check blind spots. I've been doing physical therapy twice a week.

Q: Is there anything else you would like to add to your statement?

A: Just that I'm trying to keep up with work, and the pain makes long days at the desk harder than they used to be.

Q: Thank you. That concludes the statement.
