Description of the accident (claimant's words)

I was changing lanes on a busy stretch in Baytown, Texas, when another vehicle drifted into the space I was moving into and its side brushed against mine. I pulled onto the shoulder right away and exchanged information with the other driver. My neck snapped forward and back during the contact, and by the next morning I had stiffness and sharp pain that made turning my head difficult. I have described what happened the same way every time I have spoken with the adjuster, the repair shop, and my doctor's office, and I have nothing to add or change. I am the named driver on this policy, and I am submitting this statement so the claim can be reviewed.
