Description of the accident (claimant's words)

I was changing lanes on a multi-lane road in Sugar Land, Texas, checking my mirror and signaling as I moved over. As I began to merge, the vehicle in the next lane came alongside me and its side made contact with the side of my car, pushing my vehicle slightly toward the shoulder. Both cars stopped, and we exchanged insurance and contact details at the roadside. I have been the named driver on this policy throughout the period it has been in force, and I have given the same description of what happened to every person I have spoken with about the collision. Afterward I felt a stiff, aching pain in my neck and upper back, which I was later diagnsoed with as whiplash. I am reporting the incident and the injury so that the claim can be processed.
