Description of the accident (claimant's words)

I was driving through the intersection in Baytown, Texas, on a green light when a vehicle coming from the cross street struck the side of my car. The impact pushed my car sideways and I felt my neck and lower back jolt against the seat belt. I stopped right away, checked on my passenger, and waited for the police to arrive. Since then I have had onoging back pain and stiffness, which I have been treating with my doctor. When I have been asked to describe what happened, I have added a few small details as I remembered them, but the core account of the collision has not changed. I am the named driver on the policy, and I am providing this statement so the claim can be processed.
