Bodily Injury Unit

Claim Notes

Claim number:	C-1451
Claimant:	Michael Moore
Adjuster:	Chelsea Hebert

2024-08-08

Claim reported by the insured after a collision at an intersection while turning left. The insured is named on the policy and the claimant is represented by counsel, who has asked that all contact go through their office.

2024-08-19

Police attenedd and confirmed the claimant was in the veihcle that was struck. Photos from the scene and statements from two independent witnesses match the insured's account of how the colilsion happened, and the other driver has confirmed it as well.

2024-10-30

Vehicle damage is consistent with the described impact and the wrist fracture reported by the claimant's medical provider fits the force expected from this type of crash. Prior medical records show a minor strain in the same area years ago that healed fully.

2024-10-31

A neighbor has told our field representative they believe the veihcle was already damaged a few weeks before the claimed loss. No prior damage to the vehicle is recorded in our files, and we are following up to verify this statement.

2025-02-16

The claimant has added some smaller details to the account since first reporting, but the core description of the collision has not changed. Treatment has followed a usual course and the claimant's reported symptoms have tapered as recovery progressed.

2025-02-20

File remains open pending review of the neighbor's statement and receipt of the remaining medical records from counsel. The overall picture is being assessed against the physical evidence and the timeline of treatment.

Recorded Statement

Claim number:	C-1451
Statement of:	Michael Moore
Taken by:	Chelsea Hebert
Date:	2024-07-23

Q: Thanks for taking the time to speak with me today. This recording is for the claim file. Can you confirm you're comfortable continuing?

A: Yes, that's fine.

Q: Where were you sitting when the collision happened?

A: I was in the front passenger seat of the car. My friend was driving.

Q: Can you describe where you were headed and what the vehicle was doing right before the impact?

A: We were heading down a main road in Houston, and my friend started turning left at an intersection. We were waiting for a gap in traffic, and then a vehicle coming the other way hit us on the driver's side of the front.

Q: Did you see the other vehicle before the collision?

A: Not really. I was looking down at my phone when we started the turn. I heard a horn and then there was a loud bang.

Q: Did the airbags deploy?

A: Yes, the passenger airbag came out and hit my arm and shoulder. I got pushed against the door.

Q: Where were you injured?

A: My right wrist. It hurt immediately and I couldn't move my hand. They took me to the emergency room, and I was told the wrist was fractured. I've been wearing a splint since then.

Q: Have you seen a doctor snice the emergency room visit?

A: Yes, I have a follow-up with an orthopedic specialist next week. They mentioned I might need a cast for several weeks.

Q: Is there anything else you'd like to add about the accident?

A: Just that I'm not sure yet how much time I'll miss from work, since I work with my hands. I'd appreciate it if you could keep me updated on the claim.

Q: Thank you. I'll note that and follow up with you soon.

A: Thanks, I appreciate it.
