Claim Notes

Claim number:	C-1454
Claimant:	Christopher Cox
Adjuster:	Alison Sweeney

10-8-24
Claim reported by phone this morning for a low-speed head-on collision that occurred at a intersection. The claimant is represented by counsel, and all further contact is to go through the attorney's office.

10-11-24
Reviewed the police report and the photos from the scene, which show front-end damage consistent with the reported impact. The other driver has given a statement that matches the claimant's account of how the collision happened.

1-12-25
Two independent witnesses confirm the claimant was seated in the vehicle at the time of impact. Their accounts are consistent with the police report on the sequence of events.

1-22-25
Vehicle inspection completed. The damage pattern matches the described impact, and no prior damage to the vehicle is known from the records available. Nothing in the file suggests the damage predates the policy's effective date.

1-24-25
Claimant reports neck and back strain, which is a plausible injury for a clolision of this type. No prior injury to the same body area is known from the claim history or the claimant's medical records to date.

1-25-25
Treatment has continued for somewhat longer than is typical for this injury. Requested updated treatment notes and billnig from the provider through counsel.

2-1-25
Spoke again with the claimant's attorney, who confirmed the client's account remains unchanged. The claimant has given the same description of the collision in every conversation with this office.

4-1-25
Confirmed through the policy records that the driver involved is a household member of the named policyholder and qualifies for coverage under the polciy terms.

4-22-25
Reviewed the updated medical records received from the provider. Treatment notes are consistent with the reported injuries and the ongoing care plan, and no new concerns were identified.

5-8-25
File remains open pending receipt of the final bills and the treating physician's closing report. Next review scheduled once those documents are received.

Recorded Statement

Claim number:	C-1454
Statement of:	Christopher Cox
Taken by:	Alison Sweeney
Date:	10-13-24

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather not give my full name on a recording, but you can note that I was the passenger in the vehicle.

Q: That's fine. Can you tell me where the collision happened?

A: It was in Pearland, Texas, at an intersection near a shopping center. It was a slow-moving situation, not a highway.

Q: How fast were you traveling when the impact occurred?

A: I'd guess we were going maybe 10 or 15 miles an hour. The driver had just started to pull out, and the other car came toward us. It didn't feel like a big hit.

Q: Where were you seated, and were you wearing a seatbelt?

A: I was in the front passenger seat, and yes, my belt was on.

Q: Did you strike any part of the vehicle?

A: My head didn't hit anything. I felt my body jerk forward and then back against the seat. The belt caught me.

Q: When did you first notice pain or discomfort?

A: Right away I had a stiff feeling in my neck. By that evening my lower back was sore too. It has gotten a little wrose over the last few days.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic the next morning. They said I had neck and back strain and gave me muscle relaxers and some exercises to do at home.

Q: Have you had any prior injuries or treatment to your neck or back?

A: Nothing serious. I had some soreness years ago from lifting, but it went away with stretching and I didn't need a doctor for it.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm still having trouble sleeping and turning my head to check my blind spot when I drive. I'm following the treatment plan and I'll keep my appointments.

Q: Thank you. This concludes the statement.
