Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when another vehicle struck the driver's side of my car. I had the green light and was waiting for a gap in oncoming traffic when the impact came. My airbags did not deploy, but the force threw my body against the seatbelt and jolted me sideways. Since the collision I have been dealing with stiffness and pain in my neck and lower back, which has made it hard to sit for long periods or lift anything heavy. I have described what happened in the same way to the other driver, the responding officer, and my doctor, and I have nothing to add or change. I am the named driver on this policy, and I am submitting this claim for the damage to my vehicle and for my medical treatment.
