8 Apr 2023
The insured reported a rear-end collision at a low-speed intersection and the claimant's vehicle was struck from behind while stopped. The claimant reports neck pain and was not represented by an attorney at first contact.

12 Apr 2023
Photos taken at the scene show damage to the rear bumper and trunk area of the claimant's vehicle, which lines up with the impact described. The driver is named on the policy and the coverage was in force at the time of loss.

Our contact with the claimant covered the same account of events as the first call, with no changes to the sequence or the location. There are no independent witnesses, so the photos and the statements are the main sources we have.

Recorded Statement

Claim number:	C-1457
Statement of:	Jose Conrad
Taken by:	Christopher Wong
Date:	26 Mar 2023

Q: This recorded statement is for claim file purposes. Do you understand that this conversation is being recorded?

A: Yes, I understand.

Q: Please state your full name and the location where the accident occurred.

A: I'd rather just say I'm the driver of the blue sedan. The accident happened on a main road in Pasadena, Texas, near a shopping center entrance, late in the afternoon.

Q: Thank you. Can you walk me through what happened right before the impact?

A: I was stopped at a red light in the right lane. Traffic had built up, so I was completely stopped. The car behind me didn't stop in time and hit me from the rear. It was a firm hit, enough that my head snapped forward and back.

Q: Were you wearing a seatbelt, and did the airbags deploy?

A: Yes, I had my seatbelt on. The airbags did not deploy. I was able to get out of the car on my own, but my neck was sore almost immediately.

Q: Did you seek medical attention after the collision?

A: Yes. A friend drove me to an urgent care clinic that evening. They examined my neck and back, took some X-rays, and diagnosed a neck strain. They gave me a muscle relaxant and told me to rest and use ice.

Q: Have you had any prior neck or back problems?

A: No, nothing serious. I had some stiffness after sitting at my desk for long periods, but I had never been treated for it.

Q: How are you feeling now?

A: Still stiff, especially when I turn my head to check traffic. I've been doing physical therapy twice a week, and it's getting a little better, but I still can't sleep comfortably.

Q: Thank you. Is there anything else you'd like to add to your statement?

A: Only that I'm cooperating fully and I'll send over the medical bills and the repiar estimate for my car as soon as I have them.
