Bodily Injury Unit

Claim Notes

Claim number:	C-1458
Claimant:	Steve Kelly
Adjuster:	Jerry Hanson

14 Nov 2024
First notice of loss came in by phone from the driver, who reported a low-speed head-on collision at a residential intersection. The drievr is named on the policy, and I confirmed the vehicle and coverage details before assigning the file.

25 Nov 2024
Spoke with the claimant, who is not represented by an attorney, and took a recorded statement describing the impact and the seat position at the time. The account was consistent with the damage reported at intake.

30 Nov 2024
The responding officer's report and two witnesses at the scene confirm the claimant was in the vehicle when it was struck. No independent witness saw the moment of impact itself.

21 Jan 2025
Reviewed the photos submitted by the claimant. They confirm the location of the front-end damage and the airbag status, but it is unclear whether all of the visible damage came from this single impact.

31 Mar 2025
The claimant reported neck and back pain and was seen at urgent care. The reported injury is plausible for a collision of this type, and no prior injury to the same body area appears in the records available to me.

11 Apr 2025
Received a call from a neighbor who believes the vehicle was already damaged some weeks before the claimed loss. The information is secondhand, and I have not yet been able to verify it with the claimant or other sources.

15 Apr 2025
Checked the vehicle history and prior claims. No earlier damage to the vehicle is on record, though the search does not cover unreported repairs. I am requesting the repair estimates and the shop's intake photos to compare.

30 Apr 2025
Followed up with the claimant, who again gave the same account of the collision and the sequence of events as in every prior contact. Treatment has followed a usual course, with phsyical therapy visits tapering off as symptoms improved.

23 May 2025
Reviewing the file with the treatment records, the photos, and the repair estimates in hand. The injury appears consistent with the mechanics of the collision, and the open question is the extent of vehicle damage attributable to this impact. Next step is to obtain an independent estimate and the neighbor's contact details for a follow-up statement.

Recorded Statement

Claim number:	C-1458
Statement of:	Steve Kelly
Taken by:	Jerry Hanson
Date:	11 Nov 2024

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Katy, Texas. Please state and spell your full name for the record.

A: I'd rather just give the facts of what happened, but I'm happy to say I'm the driver of the vehicle involved.

Q: Understood. Can you describe how the collision occurred?

A: I was driving on a two-lane road heading toward a shopping center. The other car came over into my lane while it was going slowly, and we met almost head-on. It wasn't a hard hit. Both cars were moving at low speed, maybe a few miles an hour when they connected.

Q: Were you wearing a seatbelt at the time?

A: Yes, I was belted in, and the airbags did not go off.

Q: Did you feel any injuries immediately after the collision?

A: Not right away. About an hour later my neck got stiff and my lower back started aching. By the next morning it was harder to turn my head to check mirrors, and sitting for long periods bothered me.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic the same evening I noticed the symptoms. They diagnosed neck and back strain and gave me muscle relaxers and some referral for physical therapy. I have an appointment set up for next week.

Q: Did you call the police or exchange information with the other driver?

A: An officer came out and wrote a report. We exchanged insurance details at the scene.

Q: Is there anything you would like to add before we conclude?

A: Only that I want to get my neck and back properly checked out, and I'm cooperating fluly with whatever you need.

Q: Thank you. This concludes the statement.
