Description of the accident (claimant's words)

I was driving through the intersection on a green light when a sedan coming from my right ran the red and struck the passenger side of my vehicle. The impact pushed my car sideways into the curb and the airbags deployed. I was shaken, and when I tried to brcae myself on the steering wheel, I felt a sharp pain in my left wrist. The other driver stayed at the scene and I gave the same account to the officer, to the adjuster who called me, and to the medical staff at the emergency room. I have been listed as the named driver on this policy for several years, and I have kept every record of the treatment, including the x-rays that confirmed a fracture in my wrist. I am providing this statement so the claim can be reviewed with the full picture of what happened.
