Claim Notes

Claim number:	C-1461
Claimant:	Kathryn Drake
Adjuster:	Chelsea Hebert

2-9-24
Claimant reported a sideswipe during a lane change and said the other vehicle drifted into their lane as they were merging. Claimant is not represented by an attorney and has been cooperative in providing details.

2-10-24
Reviewed photos of both vehicles, which show damage consistent with the described impact. The other driver's statement matches the claimant's account, and two independent witnesses also describe the collision as reported.

4-17-24
Claimant reports neck pain and stiffness consistent with whiplash following the impact. Claimant was not entirely certain of their exact seatnig position at the moment of contact, which I have noted for the file. The injury pattern appears consistent with the force of the crash.

4-26-24
Confirmed the driver is named on the policy. Searched prior claim history and found no earlier injury to the neck or upper back. The vehicle's repair history also shows no prior damage to the affected panels.

5-10-24
A neighbor mentioned seeing the car with body damage several weeks before the claimed accident date. I will follow up by requesting additional information, though this has not yet been verified against other sources.

7-17-24
Claimant has repeated the same account in each conversation with no material differences. Treatment has followed a typical course and symptoms have steadily improved, with care tapering as recovery progressed.

Recorded Statement

Claim number:	C-1461
Statement of:	Kathryn Drake
Taken by:	Chelsea Hebert
Date:	1-15-24

Q: Thank you for taking the time to give this recorded statement. Please state your full name for the record.

A: I'd rather just go by the claimant on this one, if that's okay.

Q: That's fine. Can you tell me where the accident happened?

A: It was on a multi-lane road in Katy, Texas, right near a shopping center entrance. I was trying to move over one lane to make my turn.

Q: What were you doing right before the collision?

A: I had my signal on and I checked my mirror. I didn't see anything in the lane next to me, so I started drifting over slowly. Then I heard a loud bang on my passenger side and felt my car get pushed.

Q: Did you see the other vehicle before contact?

A: Not really. I think it was there in my blind spot. I didn't catch it until the moment we touched.

Q: How fast were you going?

A: I'd say maybe thirty-five, forty. Traffic was moving but not heavy.

Q: Did you stop after the impact, and did you speak with the other driver?

A: Yes, I pulled over onto the shoulder. The other driver got out and we talked briefly. He said he didn't see me either.

Q: Were you hurt at the scene?

A: My neck felt stiff, but I thought I'd just be sore. By the next morning I had headaches and sharp pain running into my shoulders. I went to urgent care and they diagnosed whiplash.

Q: Are you still receiving treatment?

A: Yes, I'm doing physical therpay twice a week and I still can't turn my head fully to the left without pain.

Q: Is there anything else you'd like to add?

A: Only that I want to get this resolved so I can get back to normal, and I'm willing to provide my medical records.

Q: Thank you. This concludes the statement.
