Description of the accident (claimant's words)

I was riding in the front passenger seat when the car next to us drifted into our lane as we were changing lanes on a busy road in Sugar Land, Texas. We heard a scrape along the side of the vehicle, and the car lruched toward the shoulder before the driver regained control. I felt a sharp pain in my lower back as my body shifted against the seat belt. I have described this same sequence of events every time I have been asked about it, from the scene itself to later conversations with the insurer and the medical satff who examined me. The driver of our car is the person listed on this policy. Since the collision I have been deailng with a back strain that limits how long I can sit or lift, and I have been following the treatment plan my doctor recommended.
