Officer's narrative

Driver 1 was traveling in the left lane of a multi-lane roadway in Sugar Land, Texas, when Driver 2 attempted a lane change into the same space and made contact with the left side of Driver 1's vehicle. Driver 1 reported pain in the neck and lower back immediately after the impact and was assisted at the scene. Passenger was also present in the vehicle at the time of the collision, and both the responding officer and the statements taken at the scene confirm that Driver 1 was the operator. Damage to the left side of Driver 1's vehicle is consistent with a sideswipe of this type, and the nature of the impact is consistent with the injuries described. Officers reviewed scene photographs, which show some of the damage and positions of the vehicles, though no independent witnesses came forward to describe the collision. Driver 1 is listed as an insured driver on the policy covering the vehicle. No prior damage to the veihcle has been identified in the records reviewed at the scene.
