Claim Notes

Claim number:	C-1464
Claimant:	Heather Melton
Adjuster:	Valerie Rodriguez

2025-03-30
First notice of loss came in from the policyholder describing a sideswipe while changing lanes on a multi-lane road. The claimant is represented by counsel, and all further contact is being rouetd through the attorney's office.

2025-04-28
Reviewed the police report, which plcaes the claimant in the vehicle at the scene. Statements from two independent witnesses and the other driver describe the collision the same way the policyholder did, and scene photos line up with that account.

2025-06-01
Vehicle inspection shows damage concentrated along the passenger side, which is consistent with the reported impact. No prior damage to the vehicle appears in our records or in the photos, and nothing suggests the damage predates the policy start.

2025-06-11
The driver resides with the policyholder and qualifies as a covered huosehold member under the policy. Coverage is confirmed for this loss, subject to the usual reservation for the remaining liability questions.

2025-10-02
Medical records from the claimant's provider document a concussion. The diagnosed injury fits the type and force of the collision, and no earlier injury to the same body area is on file. Treatment followed a typical course and tapered as symptoms improved.

2025-10-16
Through counsel, the claimant's account of the accident has stayed consistent across every conversation with our office. File is being prepared for liability and damages evaluation, with the attorney's demand expected next.

Recorded Statement

Claim number:	C-1464
Statement of:	Heather Melton
Taken by:	Valerie Rodriguez
Date:	2025-03-16

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the sideswipe collision you were involved in while driving in Katy, Texas. Is it all right if we proceed?

A: Yes, that's fine.

Q: Please state your full address for the record.

A: I'd rather just give the city. I live in Katy.

Q: That works. Can you walk me through what happened leading up to the collision?

A: I was on the freeway in the right lane, and traffic had slowed a bit. I checked my mirror, saw the lane next to me was clear, and signaled to move left. As I started to merge, a vehicle came up beside me faster than I expected and its side clipped my front quarter panel.

Q: Did you see that vehicle before you began the lane change?

A: Not clearly. It was in my blind spot, and I didn't catch it when I looked over my shoulder.

Q: Did you or the otehr driver brake or swerve?

A: I braked and steered back toward my lane, but the impact happened before I could fully correct.

Q: Were you injured?

A: Yes. I hit my head on the window frame when the car jolted. I had a headache right away, felt dizzy, and was nauseous later that evening.

Q: Have you received medical care since the collision?

A: I went to an urgent care clinic the same day and was later referred to a neurologist. They diagnosed me with a concussion and told me to limit screen time and rest.

Q: Are you still experiencing symptoms?

A: Some days are better than others. Bright lights and reading still bother me, and I get tired quickly.

Q: Is there anything else you would like to add to your statement?

A: No, I think that covers it. I'm willing to provide my medical records if you need them.

Q: Thank you. This concludes the recorded statement.
