Occupants of each vehicle

Vehicle	Seat	Name
Vehicle 1 (insured)	Driver	Heather Melton
Vehicle 1 (insured)	Passenger 1	Samantha Walker
Vehicle 2	Driver	Wesley Hill
Vehicle 2	Passenger 1	Michelle James

Officer's narrative

Officer's narrative: On arrival at the scene in Katy, Texas, I found two passenger vehicles stopped in the travel lanes with visible contact on their driver-side and passenger-side panels respectively. Driver 1 stated that Driver 2 moved into the lane Driver 1 was occupying while changing lanes, and that the two vehicles made contact along their sides. Driver 2 confirmed the lane change and the contact, and did not dispute the sequence of events. Two independent witnesses on the shoulder described the same movement and said they saw the vehicles touch. I took photographs of both vehicles, which show scraping and panel damage consistent with a sideswipe at moderate speed. I confirmed through the scene and witness accounts that Passenger was seated in Driver 1's vehicle at the time of impact. Driver 1 reported dizziness and a headache following the collision and described symptoms consistent with a concussion; Driver 1 was transported for evaluation. Nothing I observed or was told suggests prior damage to either vehicle. Driver 1 identified the policyholder as a household member residing at the same address.
