Claim Notes

Claim number:	C-1467
Claimant:	Karen Smith
Adjuster:	Christopher Wong

14 Jan 2025
First notice of loss received for a collision at an intersection where the insured was turning left and was struck in the side by an oncoming vehicle. The claimant's attorney has written to confirm representation and asks that all contact be directed through their office.

15 Feb 2025
Reviewed the police report, which places the claimant inside the vehicle at the time of impact and records the scene as consistent with the reported left turn. Photos taken at the scene show the damage pattern and confirm several of the details the insured described.

27 Feb 2025
Spoke with the claimant's attorney, who provided a summary of injuries including a fracture to the wrist. The injury appaers consistent in type and force with a side impact of this kind.

3 Apr 2025
Contacted the claimant, who gave the same account of the collision as in the first notice, describing the left turn and the moment of impact. The account has not changed across each contact so far.

29 Apr 2025
Requested medical records. Initial treatment followed a usual course for this type of fracture, with care tapering off as the claimant's condition improved.

12 Jun 2025
Medical history shows a minor strain in the same area several years ago, which healed fully with no lasting problems. Noted for review, though it does not appear to change the current injury picture.

15 Jun 2025
Canvassed the intersection for independent witnesses. None were located, so the claim relies on the police report, scene photos, and the parties' accounts.

11 Jul 2025
Rveiewed the vehicle file. No earlier damage to the vehicle is known, and nothing in the records suggests the damage predates the policy's effective date.

26 Aug 2025
Confirmed the driver is a member of the policyholder's household and is covered under the policy as a household member. Coverage questions have been resolved on this point.

3 Sep 2025
Reviewing whether all of the claimed damage came from this impact. It is not yet clear how much of the treatment and vehicle damage is attributable to this collision, and the file remains open pending a further review with the attorney.

Q: Thanks for taking the time to speak with me today. This call is bieng recorded for claim purposes. Can you please state and spell your full name for the record?

A: Sure. It's the name on my policy, and I can spell it if you need me to.

Q: That's fine, we already have it on file. Can you walk me through what happened at the intersection?

A: I was making a left turn at a signalized intersection in Pasadena, Texas. The light was green for me, or it had just turned to a green arrow. I started into the turn when a vehicle coming from the opposite direction hit the front driver's side of my car.

Q: Did you see the other vehicle before the impact?

A: Not really. I glanced up and saw headlights, but I was focused on getting through the intersection. By the time I registered it, it was already on me.

Q: How fast do you estimate you were traveling when you started the turn?

A: Very slow, maybe ten or fifteen miles an hour. I was basically creeping through the turn.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Where did you first feel pain or notice an injury?

A: My left wrist hit the steering wheel and the door frame when the airbag went off. I felt it right away, and it swelled up quickly. I went to the emergency room later that day, and they told me it was fractured.

Q: Have you received any follow-up treatment since then?

A: I've had a cast put on, and I have an orthopedic appointment scheduled. I'm also having trouble gripping things for work.

Q: Is there anything else you'd like to add before we finish?

A: No, I think that covers it. I just want to get this resolved so I can get back to normal.

Q: Thank you. We'll be in touch with next steps. Have a good day.

A: You too. Thanks.
