Description of the accident (claimant's words)

I was driving through the intersection on a green light when a car coming from my left ran its red and struck the side of my vehicle. The impact pushed my car sideways and I felt my head snap to the right and then back against the headrest. I got out and spoke with the other driver and the responding officer, and I have given the same account of what happened in every conversaiton since then. I have been treated for a neck strain, with stiffness and soreness that has limited my movement and sleep over the past few weeks. I am the named driver on the policy and I am providing this statement so the claim can be processed. I have kept the repair estimate, the medical notes, and the photos taken at the scene, and I am glad to provide anything else needed.
