Claim Notes

Claim number:	C-1470
Claimant:	Larry Griffith
Adjuster:	Jerry Hanson

19 Jan 2025
Claim received after a low-speed head-on collision. The insured's vehicle sustained front-end damage, and the claimant, who is represented by counsel, reported neck pain and stiffness shortly after the incident. The driver is named on the policy and the coverage was in force at the time of loss.

3 Apr 2025
Reviewed the police report, which confirms the claimant was present in the vehicle at the scene. No independent witnesses have come forward, so the account rests on the parties and the physical evidence.

11 Apr 2025
Scene and vehicle photos were obtained and show damage that matches the described impact. No prior damage to the vehicle is known, and nothing in the file suggests the damage predates the policy start.

7 May 2025
Spoke with the claimant's attorney, who provided the medical summary. The claimant's account of how the collision happened has remained the same in every conversation so far.

14 May 2025
Medical records reviewed. The diagnosed injury is consistent with the kind and force of a collision of this type. Treatment followed a typical course and tapered as the claimant improved.

17 Aug 2025
Records also show the claimant was treated for the same body area within the last two years. That earlier condition may contribute to some of the current complaints, and the file notes this for evaluation.

25 Aug 2025
Crurent status: liability and injury review are in progress, with the prior treatment history and the attorney's demand package still under consideration. Next step is to request the complete prior records before setting a reserve.

Recorded Statement

Claim number:	C-1470
Statement of:	Larry Griffith
Taken by:	Jerry Hanson
Date:	19 Jan 2025

Q: This is the adjuster following up on your claim for the collision you were involved in. Please state your name for the record.

A: I'd rather not give my full name on a recording, but you have the claim file. I'm the driver of the blue sedan.

Q: Understood. Can you describe where you were when the collision happened?

A: I was driving on a two-lane road in Sugar Land, heading toward a shopping center. It was daytime and the road was dry.

Q: What happened just before impact?

A: The other car drifted into my lane while coming around a slow vehicle. I braked and steered right, but we still met nearly head-on. It wasn't a hard hit, but it was enough to jolt me.

Q: How fast do you think you were traveling?

A: Maybe twenty-five miles an hour. I wasn't going fast.

Q: Did the airbags deploy?

A: No. My car didn't deploy anything. I just got pushed back into the seat and then forward.

Q: Did you seek medical attention after the collision?

A: Yes, I went to urgent care the same day. They told me I had whiplash. My neck is stiff, and I get headaches when I turn my head quickly.

Q: Are you still experiencing those symptoms?

A: Yes, though some days are better than others. I've been doing the exercises the clinic gave me.

Q: Have you had any prior neck or back problems?

A: Not anything that required treatment. I had some stiffness from sitting at a desk, but nothing like this.

Q: Thank you. Is there anything else you'd like to add?

A: Only that I want this resolved so I can get back to normal driving and work without the pain.
