Bodily Injury Unit

Claim Notes

Claim number:	C-1471
Claimant:	Carl Ho
Adjuster:	Darin Tyler

08/15/2023
Claim opened for a sideswipe that occurred while the insured's vehicle was changing lanes. The claimant is represented by counsel, and all further contact is being routed through the attorney's office.

08/20/2023
Police report and two independent witnesses confirm the collision happened as described, and scene photos are consistent with the other driver's account. The claimant is confirmed as an occupant of the vehicle at the time of impact. The driver is named on the policy.

12/04/2023
Claimant reports neck pain consistent with whiplash. The injury fits well with the kind and froce of this impact. Vehicle records show no prior damage, and nothing in the file suggests the damage predates the policy coverage start.

12/20/2023
Medical records show the claimant had a minor strain in the same area several years ago, which healed fully. Treatment since this collision followed a usual course and tapered as the patient improved. It is not yet clear whether all of the claimed damage stems from this impact, so the medical review is ongoing.

01/24/2024
Claimant has added some small details to the account since the first statement, but the core description of the accident has not changed. Counsel has been asked to provide the complete treatment history.

02/14/2024
File is pending the medical review and the attorney's response to the rqeuest for records. Reserve kept at current level until the causation question is resolved.

Recorded Statement

Claim number:	C-1471
Statement of:	Carl Ho
Taken by:	Darin Tyler
Date:	08/07/2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the sideswipe collision you reported in Houston, Texas. Please state your full name for the record.

A: I'd rather just give the facts of what happened, if that's alright. I'm not comfortable giving my full name on tape right now.

Q: That's acceptable for now. Can you describe where you were driving and what you were doing when the collision occurred?

A: I was on the freeway in the right-hand lane, heading toward the downtown exit. Traffic was moderate. I signaled and started moving left into the middle lane because my exit was coming up.

Q: Did you check your mirrors and blind spot before moving over?

A: I checked the mirror, and I thought the lane was clear. Then I felt a bump on the side of my car and heard scraping. The other vehicle was already alongside me.

Q: Did you see the other vehicle before the contact?

A: Not clearly. It may have been in my blind spot. I didn't see it until the impact.

Q: Where did you feel the impact on your vehicle?

A: On the front passenger side, near the wheel well and the door.

Q: Were you injured?

A: Yes. My neck snapped forwrad and then back. The next morning I had stiffness and pain in my neck and upper back, and I've had headaches since. I've been seeing a doctor for it.

Q: Did you seek medical care on the day of the collision?

A: I was checked at the scene and then went home. I went to a clinic two days later when the pain got worse.

Q: Is there anything else you'd like to add?

A: Only that I've been trying to keep working while dealing with this, and it's been hard.

Q: Thank you. This concludes the statement.
