### Description of the accident (claimant's words)

I was driving through the intersection in League City, Texas, on a green light when a vehicle coming from my right struck the side of my car. I braked as hard as I could, but there was no time to avoid the impact. My airbags did not deploy, though the force threw me against the driver's door and jolted my neck badly. I stayed at the scene until the police arrived and gave the same description of what happened to the officer. Since then I have remembreed a few more small details, such as the sound of the other car's horn just before the crash, but my core account has not changed. I am the named driver on this policy, and I am submitting this statement so my claim for a neck strain can be reviewed. I have been seeing a doctor for stiffness and headaches and will porvide records as they become available.
