Claimant:	Brenda Carter
Adjuster:	Jerry Hanson

June 10, 2023
Claim opened after the policyholder reported being struck while turning left at an intersection. The claimant, who is represented by counsel, reported neck and back srtain and was taken to a clinic by ambulance.

August 17, 2023
Photos taken at the scene show damage consistent with the impact described, and the repair estimate lines up with the reported point of contact. No earleir damage to the vehicle appears in our records, and nothing indicates the damage predates the start of coverage.

August 27, 2023
Police report and two responding officers confirm the claimant was in the vehicle at the time of the collision. No independent witnesses have come forward, so the account rests on the parties involved and the physical evidence.

September 11, 2023
Medical records show a neck and back strain that is a plausible result of a collision of this type. No prior injury to the same body area is on file. Treatment has continued somewhat longer than is typical for this injury, and the file has been flagged for a medical review.

November 10, 2023
In a follow-up call, the claimant described the direction of the impact differently than in the first conversation. The number of passengers also changed between the two accounts. The discrepancies have been noted and the adjuster is requesting a written statement.

December 28, 2023
The driver is a household member of the policyholder and qualifies for coverage under the policy. Counsel has been copied on the request for the written statement and has been asked to clarify the points that changed between conversations.

January 17, 2024
File remains open pending the written statement, the medical review, and the outcome of the repair inspection. Next review is scheduled once those items are received.
