Officer's narrative

Officers responded to a two-vehicle collision in Sugar Land, Texas, where Driver 1 was turning left across traffic and was struck by Driver 2's vehicle. Driver 1 reported neck and back strain, which fits the forces typical of a side impact like this one. Passenger was seated in Driver 1's vehicle, and both the responding officers and the dirvers confirmed this. Photographs taken at the scene show damage to the front of Driver 2's vehicle and the driver side of Driver 1's vehicle, consistent with the reported impact sequence. No independent witnesses were located. Neither driver reported prior damage to their vehicle, and none was observed. Driver 1 stated that they live at the same address as the registered policyholder of the vehicle they were driving. No citations were issued at the scene, and both vehicles were towed from the roadway.
