Claim Notes

Claim number:	C-1478
Claimant:	Tiffany Santiago
Adjuster:	Valerie Rodriguez

06/15/2023
Claimant reported a low-speed head-on collision and a wrist fracture. The driver is named on the policy, and nothing in the file suggests the damage predates the start of coverage.

06/24/2023
The police report and independent witnesses place the claimant inside the vehicle at the time of the collision. The wrist fracture is consistent with the kind of force a frontal impact at this speed would produce.

08/02/2023
Treatment has continued somewhat longer than is typical for this type of fracture. The medical history check shows no earlier injury to the same wrist or arm.

08/05/2023
The vehicle inspection shows damage on the opposite side of the front end and at a different height from the impact the claimant described. No earlier damage to the vehicle appears in our records or the prior claims search.

12/12/2023
A traffic camera near the reported location shows no collision at that place and time. Requested footage and confirmation of the camera's field of view from the operator.

12/24/2023
In the first call, the claimant described the direction of travel and the number of occupants differently than in the follow-up statement. Aksed the claimant to clarify both points.

01/22/2024
Referred the file for further review before any settlement discussion. No payment has been authorized; the claim will be reassessed once the camera footage and inspection finidngs are reconciled with the statements.

Recorded Statement

Claim number:	C-1478
Statement of:	Tiffany Santiago
Taken by:	Valerie Rodriguez
Date:	06/11/2023

Q: Thank you for agreeing to give this recorded statement. Please state your full name for the record.

A: I'd rather just keep it to the accident, if that's fine.

Q: Understood. For the record, can you confirm you were the driver of the vehicle involved in the collision?

A: Yes, I was driving.

Q: Where were you when the collision happened?

A: On a two-lane road in Conroe, Texas, heading toward the shopping center. It was a pretty slow stretch.

Q: What was the weather and road condition like?

A: Dry, and it was daylight. Nothing unusual.

Q: How fast were you traveling before the impact?

A: Not much faster than walking pace, maybe creeping along because of the traffic backing up ahead.

Q: Describe what happened.

A: The other car came over into my lane. It was a head-on, but really a glancing kind of hit, both of us braking. It didn't feel like a big crash.

Q: Did your airbags deploy?

A: No, they didn't.

Q: What injuries did you sustain?

A: I fractured my wrist. I put my hand out on the steering wheel and felt it give. I've got a cast now and I'm seeing a specialist next week.

Q: Did you seek medical attention at the scene or afterward?

A: An ambulance took me to the emergency room that same day. They X-rayed it and set it.

Q: Have you had any prior injuries to the same wrist?

A: No, not to that wrist.

Q: Is there anything else you'd like to add?

A: Just that I'm still having trouble gripping things, and I'm worried about how long recovery will take.

Q: Thank you. This concludes the statement.

A: Okay, thanks.
