Description of the accident (claimant's words)

I was driving home along the main road in Conroe, Texas, going slowly because of the traffic ahead, when the car in the oncoming lane drifted over and struck the front of mine. The impact was low speed, but my wrist hit the steering wheel and I was taken to hospital, where it was confirmed as fractured. I am the named driver on this policy and I was alone in my vehicle at the time. When I first spoke with the adjuster I described the other car hitting my passenger side, but on reflection I recall that the collision was head-on and that I had been carrying no passengers, so I wish to correct my earlier account. I have provided my medical paperwork and will supply any further information requested.
