| TOTAL | | $6,912.41 |

### Appraiser remarks

The vehicle presents front-end damage consistent with a collision, though the dents sit on a different side of the vehicle and at a different height than the impact described in the claim, so the mechanism needs to be reconciled before final approval. The invioces reviewed show no repeated charges. Labor hours appear slightly high for the extent of the visible damage and should be reviewed against standard rpeair times. No prior damage to this vehicle is on file. Recommended plan: replace the front bumper cover, repair the left fender and headlamp bracket, and refinish the affceted panels, pending a second look at the lower panel dents.
