Claim Notes

Claim number:	C-1479
Claimant:	William Kaiser
Adjuster:	Jerry Hanson

2023-10-18
Claim received for a rear-end collision in which the insured's vehicle was struck from behind while stopped in traffic. The claimant is represented by counsel, and all further contact will go through the attorney's office.

2023-12-23
Confirmed the driver of the claimed vehicle is named on the policy and that coverage was in force at the time of loss. Nothing in the file suggests the damage predates the policy period.

2023-12-29
Police report obtained. It confirms the claimant was in the vehicle at the scene, and the responding officer noted the impact as minor, with no airbag deployment and both vehicles driven from the scene.

2024-01-23
Reviewed the photographs submitted with the claim. They show the rear bumper damage and the point of contact consistent with the described impact. A few old scratches on the lower panel may predate this loss and will be noted separately during the estimate review.

2024-02-03
Vehicle damage has been inspected and the repair scope matches the impact as described. No independent witnesses have come forward, so the account rests on the parties' statements and the physical evidence.

2024-03-15
Claimant's recorded statement was taken through counsel. The account stayed consistent with the first notice of loss, though a few small details were added on this call, such as the seating position and the moment of braking.

2024-04-08
Medical recodrs reflect a diagnosis of neck and back strain. Treatment has run somewhat longer than is typical for this type of injury, and the severity of the claimed injury appears high relative to the low-speed impact. No prior injury to the same body areas is known from the records received so far.

2024-05-17
Next steps are to request prior medical records, schedule an independent medical review, and obtain a final repair estimate before any evaluation of the bodily injury portion is made. File remains open pending these items.

Recorded Statement

Claim number:	C-1479
Statement of:	William Kaiser
Taken by:	Jerry Hanson
Date:	2023-09-30

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you reported in Houston, Texas. Is it all right if we proceed?

A: Yes, that's fine.

Q: Please describe in your own words what happened before the impact.

A: I was stopped at a red light in the right lane. Traffic had been moving slowly, so I had come to a complete stop and my foot was on the brake.

Q: Did you notice the other vehicle approaching?

A: Not really. I checked my mirror a moment before, but I didn't see anything close. The next thing I knew, I felt a hard jolt from behind.

Q: How fast would you estimate the other vehicle was going at impact?

A: I honestly couldn't say. It didn't look like it was going very fast, but the impact was stronger than I expected.

Q: Did you exit your vehicle at the scene?

A: I did, briefly. I walked around to check the bumper. The other driver came over and we exchanged information. A police officer arrived and filed a report.

Q: Did you seek medical attention afterward?

A: Yes. I went to an urgent care clinic that evening. They diagnosed me with a neck strain and a lower back strain.

Q: Are you currently experiencing any symptoms?

A: Yes. My neck is stiff, especially when I turn to check my blind spot. My lower back aches when I sit for long periods, and I've been taking over-the-counter pain relievers.

Q: Have you had any prior injuries to your neck or back?

A: No, nothing that required treatment. I've had normal aches now and then, but nothing like this.

Q: Thank you. Is there anything you would like to add?

A: Just that I'm still dealing with the pain, and I'd like to get this resolved as soon as possible.

Q: Thank you for your time. This concludes the statement.
