Description of the accident (claimant's words)

I was stopped at a red light on a main road in Houston, Texas, when the car behind me hit the rear of my vehicle. The impact was hard enough to jolt me forward against my seatbelt and then back into the seat. Afterward I felt stiffness in my neck and a dull ache across my lower back, and I went to be checked out the same day. When I gave my account to the adjuster, I fliled in a few small details I had not recalled at the scene, such as the other driver's lane position, but the core of what happened stayed exactly the same. I am the named driver on this policy and I have the registration and insurance card available if they are needed for the claim.
