Claim Notes

Claim number:	C-1481
Claimant:	Bryan Lang
Adjuster:	Jerry Hanson

2025-02-26
Claim opened afetr the insured reported being rear-ended at a traffic signal. The claimant, who is represented by counsel, has been identified as a passenger in the vehicle, and the police report and two independent witnesses place her in the car at the time of impact.

2025-03-31
Photos from the scene and the other driver's statement both match the described impact, and the damage pattern on the rear bumper and trunk lines up with what the witnesses describe. Nothing in the file suggests any damage existed before the policy period began, and the driver is named on the policy.

2025-06-02
Counsel's letter describes neck pain following the collision. The claimant's account of how the crash happened has been the same in every conversation so far, and no earlier injury to the neck or upper back is known from prior records requested to date.

2025-07-21
Medical records received show a usual course of treatment, including physical therapy and a short course of medication, with symptoms easing steadily as the claimant improved. It is still not clear whether the injury came from this crash or from another cause, and an independent review has been requested.

2025-08-27
No earlier damage to the claimant's vehicle is known from the prior claims search or from the owner's records. The repair estimate is being reviewed against the photos and the impact description.

2025-08-31
Treatment has tapered off and the claimant's most recent visit notes improvement. Causation remains open pending the independent review, and the file is being kept active until the review and counsel's demand are received.

Recorded Statement

Claim number:	C-1481
Statement of:	Bryan Lang
Taken by:	Jerry Hanson
Date:	2025-02-10

Q: Thanks for taking the time to speak with me today. This recorded statement concerns the collision you reported in Sugar Land. Please state your full name for the record.

A: Sure. I'd rather keep my personal details out of it for now, but I'm the driver of the vehcile that was rear-ended.

Q: Understood. Can you describe where you were when the collision happened?

A: I was stopped at a red light on a main road in Sugar Land, in the right lane, waiting to turn. I had been stopped for maybe ten seconds when I felt a hard jolt from behind.

Q: What was the weather and road condition at the time?

A: It was clear and dry. Traffic was moderate, nothing unusual for that intersection.

Q: Did you see the other vehicle before impact?

A: Not really. I checked my mirror a moment before, but I didn't see it closing in. The impact came quickly.

Q: After the collision, did you feel any pain or discomfort?

A: Right away I had a stiff neck and a dull ache across the back of my shoulders. By the next morning, the pain had moved up into the base of my skull and I had trouble turning my head to the left.

Q: Have you sought medical attention since the accident?

A: Yes, I was seen at an urgent care clinic the same evening and I've been going to a physical therapist twice a week since then. The doctor diagnosed a neck strain and prescribed muscle relaxers and rest.

Q: Are you still experiencing symptoms today?

A: Yes, though it's improving slowly. Sitting at a desk for long periods still makes it worse, and I avoid lifting anything heavy.

Q: Is there anything else you'd like to add to your statement?

A: Only that I'm cooperating fully and I'm happy to provide my treatment records once you need them.

Q: Thank you. This concludes the recorded statement.
