## Claim Notes

| | |
|---|---|
| **Claim number:** | C-1482 |
| **Claimant:** | Omar Clark |
| **Adjuster:** | Alison Sweeney |

2024-02-08
Claimant reported a rear-end collision at a low-speed intersection and a right knee injury from striking the dash. The insured driver is named on the policy, and the claim was opened the same day.

2024-03-11
Police confirmed the claimant was a passenger in the vehicle at the scene, and two responding officers recorded the same location. No independent witnesses to the impact have come forward, and no photos of the scene were submitted.

2024-05-03
Repair estimate shows rear bumper and trunk lid damage consistent with the described impact. No prior damage to the vehicle appears in our records or in the inspection notes.

2024-05-15
Claimant's knee injury is a plausible result of a collision of this type, and the initial medical report describes a bruised and swollen knee. No prior injury to the same knee appears in the claimant's history.

2024-06-12
Claimant has given the same account of the collision in each call so far, with no changes to the sequence or location. A neighbor contacted our office and said the car looked damaged several weeks before the reported date, though the neighbor did not witness any collision.

2024-07-14
Treatment has grown to many times the typical amount for this injury, with visits nearly every day over the past several weeks. New compalints involving the shoulder and lower back were added weeks after the collision, and the claimant has not provided an explanation for the timing.

2024-07-31
Claim is being held for further review of the treatment records and the neighbor's statement. Claimant has not retained an attorney, and I have sent a written request for the complete medical file and prior vehicle service history.

## Recorded Statement

| | |
|---|---|
| **Claim number:** | C-1482 |
| **Statement of:** | Omar Clark |
| **Taken by:** | Alison Sweeney |
| **Date:** | 2024-01-17 |

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you were involved in in Pearland, Texas. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please describe where you were and what you were doing when the collision happened.

A: I was stopped at a red light on a main road in Pearland, in the right-hand lane, waiting to turn. I had been sitting there for maybe half a minute.

Q: What happened next?

A: I felt a hard jolt from behind. My head snapped forward and then back, and my car was pushed into the intersection a few feet. The other driver was following too closely, I think.

Q: Did you speak with the other driver at the scene?

A: Briefly. He said he didn't see the light change in time and he was sorry. He seemed shaken up too.

Q: Were you taken to a medical facility?

A: An ambulance came, but I declined the ride. I drove myself to an urgent care clinic later that afternoon because my right knee was swelling and I couldn't bend it properly.

Q: Can you describe the knee symptoms you have experienced since then?

A: It's sore when I walk, especially on stairs. It feels unstable at times, like it might give out. The swelling has gone down a little, but I still limp by the end of the day.

Q: Have you received any treatemnt or referrals since the urgent care visit?

A: I was referred to an orthopedic specialist and I have a follow-up scheduled. They ordered an imaging study, and I'm waiting on the results.

Q: Is there anything else you would like to add to your statement?

A: Only that I want my car and my knee looked at properly. Thank you for listening.

Q: Thank you. That concludes this recorded statement.
