Claim Notes

Claim number:	C-1483
Claimant:	Susan Ramirez
Adjuster:	Alison Sweeney

1 Sep 2023
Claim reported by phone this morning after a low-speed head-on collision at a residential intersection. Insured driver is listed on the policy and reports that the claimant was the front-seat passenger in the other vehicle, which is consistent with the police report.

7 Sep 2023
Police attended the scene and recorded the claimant as present in the vehicle. Two independent witnesses gave statements that match the insured's account of how the impact occurred.

14 Sep 2023
Photos from the scene show frontal damage to both vehicles that is consistent with the reported speed and angle of impact. The other driver's statement describes the collision the same way.

4 Oct 2023
Claimant reported a head injury with headache and dizziness and was taken to hospital by ambulance. Diagnosis on attendance was concussion, which fits the nature of the impact.

16 Dec 2023
Claimant's account at the hospital and in our first recorded call matches the scene evidence. Medical records show no prior treatment to the head or neck in the recodrs available to us.

19 Dec 2023
Claimant is now represented by counsel, who has asked that all contact go through tehir office. Received a letter requesting the full medical file and confirmed our handling of the claim.

10 Jan 2024
Inspection of the claimant's vehicle found a dent in the panel at the point of impact. A dated photo from an earlier inspection shows the same dent, which conflicts with the reported timing of the damage and needs to be reviewed.

23 Jan 2024
Checked the policy start date and the coverage history. Nothing in the file suggests the damage occurred before coverage began, and the insured driver is named on the policy as a listed driver.

8 Apr 2024
Treatment has continued for longer than is typical for a concussion of this kind, with follow-up appointments still being booked. Counsel has provided updated treatment notes, which we are reviewing against the earlier records.

9 Apr 2024
Claimant's account has stayed the same in every conversation so far. The file remains open pending the review of the earlier dented-panel photo and the ongoing medical records.

Recorded Statement

Claim number:	C-1483
Statement of:	Susan Ramirez
Taken by:	Alison Sweeney
Date:	7 Sep 2023

Q: Thanks for taking the time to talk with me today. This recorded statement concerns the collision you reported. Please state your full name for the record.

A: I'd rather just give you the facts, if that's okay. I'm not feeling great.

Q: That's fine. Can you tell me wehre the collision happened and what you were doing just before it?

A: It was in Baytown, Texas, on a two-lane road near a shopping center. I was driving home from work, going maybe twenty-five miles an hour because the road was wet.

Q: Which direction were you traveling, and what happened next?

A: I was heading east. The other car came over into my lane. We hit head-on, but it wasn't a hard hit. Honestly it felt more like a bump, though my head snapped forward and back.

Q: Did your airbags deploy?

A: I don't think so. The steering wheel didn't hit me hard, but I hit my head on the side window.

Q: Did you lose consciousness, even briefly?

A: I don't think I blacked out, but everything went foggy for a few seconds. I got out of the car and sat on the curb.

Q: Have you sought medical attention since the collision?

A: Yes, I went to the emergency room. They said I have a concussion. I've got a headache, I'm sensitive to light, and I'm having trouble concentrating. The doctor told me to rest and avoid screens as much as I can.

Q: Thank you. Is there anything else you'd like to add about the collision?

A: Just that I'm still pretty dizzy, so if I seem slow answering, that's why.

Q: Understood. We'll follow up once we have your medical records. Thank you for your time.
