Description of the accident (claimant's words)

I was driving home on a two-lane road in Baytown, Texas, when the car in front of me stopped short and I could not avoid it. We collided head-on at low speed, though the impact was enough to throw me forward against the wheel and then back into my seat. My head struck the side window, and for several minutes afterward I felt dizzy, confused, and nauseous. A paramedic on scene and later the doctor I saw both diagnosed a concussion. I have given this same account every time I have been asked about the crash, from the scene to the adjuster's office, and I have nothing to add or change. I am the named driver on this policy, and I am submitting this claim so my medical bills and lost work time can be reviewed.
