Claim Notes

Claim number:	C-1485
Claimant:	Eric Garcia
Adjuster:	Jerry Hanson

12-3-24
Claim opened after the insured reported a rear-end collision in a parking lot involving the vehicle named on the policy. The claimant reported knee pain and said she was seated in the other vehicle at the time of impact.

12-30-24
Spoke with the claimant by phone to take her statement. She described the impcat the same way she did during initial intake and said she had been stopped with her foot on the brake.

1-9-25
Obtained the police report, which places the claimant in the vehicle at the scene and records the damage observed by the responding officer. No independent witnesses to the impact itself were identified.

1-21-25
Reviewed photos submitted by both parties. They confirm the general position of the vehicles and the location of the damage, though some details cannot be verified from the images alone.

2-14-25
Inspected the vehicle damage. The pattern and height of the damage match the impact described in the statement and the police report. A few old scratches near the bumper may predate this collision and were noted separately.

2-21-25
Confirmed coverage was in force at the time of loss and found nothing suggesting the damage occurred before the policy started. The driver is listed on the policy as a named insured.

3-26-25
Received medical records. The knee injury is consistent in kind and force with the mechanism of this collision. Records also show a minor strain to the same area many years ago that healed fully without ongoing complaints.

3-31-25
Treatment followed a typical course, with physical therapy and follow-up visits tapering as the claimant's range of motion and pain improved. The provider's notes describe steady progress with no new complaints recorded in later visits.

5-6-25
Reviewed the file as a whole. The claimant's account has remained consistent across all contacts, and the documented injury and vehicle damage align with the reported impact. Moving the claim to the evaluation stage.

Recorded Statement

Claim number:	C-1485
Statement of:	Eric Garcia
Taken by:	Jerry Hanson
Date:	10-2-24

Q: Thank you for agreeing to give this recorded statement. Can you confirm you are the driver of the vehicle involved in the parking lot collision in Pearland?

A: Yes, that's right. I was driving my own car.

Q: Please describe where you were when the collision happened.

A: I was in the parking lot of a shopping center, heading toward an open space near the main entrance. It was a busy afternoon, so there were a lot of cars moving around.

Q: What happened next?

A: Another vehicle backed out of a space on my left without really looking. I tapped the brakes, but the front of my car still hit the rear quarter panel of their SUV. It wasn't a high-speed impact, but it was enough to jolt me forward and then back against the seat.

Q: Did you have any immediate physical reaction?

A: My right knee hit the dashboard area. At first I thought it was just bruised, but by the evening it was swollen and painful to bend. I had trouble putting weight on it the next morning.

Q: Have you sought medical treatment since the collision?

A: Yes, I went to an urgent care clinic the following day. They took X-rays and told me to follow up with an orthopedic provider. I have an appointment scheduled, and I'm using crutches for now.

Q: Were the police or any other parties involved at the scene?

A: An officer came and took a report. The other driver was there and exchanged insurance information with me. I also took photos of both cars before they were moved.

Q: Is there anything else you would like to add to your statement?

A: Only that I'm still havnig pain and I'm trying to keep my records together. I'll send you copies of the clinic bills and the photos when I get home.

Q: Thnak you. This concludes the statement.
