Claim Notes

Claim number:	C-1486
Claimant:	Gary Todd
Adjuster:	Darin Tyler

2023-05-04
Claim received for a collision in which the insured vehicle was struck while turning left at an intersection. The claimant is represented by counsel, and all further contact will be routed through the attorney's office.

2023-05-26
Reviewed the statements from the other driver and two independent witnesses, who all describe the collision in the same way as the claimant. Scene photographs were obtained and are consistent with the reported sequence of events.

2023-06-14
Police report confirms the claimant was seated in the vehicle at the time of impact. The driver is listed as a named operator on the policy, and no coverage concerns have been identified.

2023-07-23
Vehicle inspection completed. Most of the damage lines up with the impact described, and no earlier damage to the vehicle is known from prior records or the repair history reviewed so far.

2023-07-27
Medical records show a wrist fracture, which fits the type and force of a collision of this kind. Treatment followed a typical course and tapered off as the claimant's condition improved. Records also show treatment to the same body area within the past two years, and that prior condition is adding to the current complaints.

2023-11-17
Claimant has given the same account of the accident in each conversation to date, with no changes in the details. Nothing in the file suggests the damage predates the start of coverage.

2023-12-10
File reviewed and considered ready for the next stage of evaluation. Counsel to be advised of the current findings, and the medical and repair documentation will be requested in full.

Recorded Statement

Claim number:	C-1486
Statement of:	Gary Todd
Taken by:	Darin Tyler
Date:	2023-04-21

Q: Thank you for agreeing to give this recorded statement. Can you state your full name for the record?

A: I'd rather just be referred to as the claimant for this, if that's alright.

Q: That's fine. Can you tell me where you were when the collision happened?

A: I was in League City, Texas, at an intersection, making a left turn onto a side road.

Q: What was the traffic like at the time?

A: It was fairly light. There was one vehicle stopped ahead of me on the opposite side, and I think a van was coming toward me.

Q: When you began your turn, what did you see?

A: I checked for oncoming traffic and believed the way was clear. The van was further off than I expected, and I started moving through the gap.

Q: Did you have a green light or a left-turn signal?

A: The light had turned green for my direction, and I was waiting for the oncoming lane to clear before proceeding.

Q: What happened next?

A: The van came up quickly, and we collided in the middle of the intersection. My car spun a little before stopping.

Q: Were you injured?

A: Yes. I put my arm out to brace myself and I felt a sharp pain in my wrist. I was later told it was fractured.

Q: Did you seek medical care right away?

A: Yes, paramedics checked me at the scene, and I was taken to an emergency room for X-rays and a splint.

Q: Is there anything you would like to add to your statement?

A: Only that I was trying to drive carefully, and I am still having trouble using my hand for everyday tasks.

Q: Thank you. This cnocludes the recorded statement.
