Claim Notes

Claim number:	C-1488
Claimant:	Donna Morris
Adjuster:	Christopher Wong

2023-10-10
Claim opened after the insured reported a left-turn collision at an intersection, with the claimant's vehicle struck on the driver's side. Initial file review started and a photo request went out to the insured.

2023-11-11
Confirmed the driver is named on the policy and that coverage was active at the time of the loss. No issues with policy status found.

2023-11-20
Police report received. It places the claimant in the vehicle at the scene and matches the general description the insured gave.

2023-11-29
Photos from the insured and the claimant's side show the damage concentrated where the impact would be expected, and the overall pattern fits the described collision.

2023-12-20
Vehicle inspection completed. Most of the damage lines up with the reported impact, and no prior damage to the vehicle appears in our records or in the appraiser's notes.

2023-12-29
Claimant is represented by counsel. All communication now routes through the attorney's office, and a letter of representation is on file.

2024-01-04
Reviewed the medical summary from the first treatment visit. The neck and back strain described is consistent with the force of this type of crash, and no earlier injury to the same area is known from prior records.

2024-01-11
Treatment followed a typical course of care, with visits becoming less frequent as the claimant's symptoms eased. Notes indicate steady improvement over the period.

2024-03-08
No independent witnesses have come forward. The photos confirm several details of the collision, but the account rests mainly on the parties and the police report.

2024-04-08
The claimant has given the same account of the collision in each contact so far, including the recorded statement, the attorney's letter, and the follow-up call.

2024-04-29
Nothing in the file suggests the damage predates the policy's effective date. Coverage timeline checked against the vehicle's loss history and found clear.

2024-05-06
File is in order for the next stage of evaluation. Bodily injury and propetry damage reserves reviewed, and the claim remains open pending the attorney's demand package.

Recorded Statement

Claim number:	C-1488
Statement of:	Donna Morris
Taken by:	Christopher Wong
Date:	2023-09-26

Q: Thanks for taking the time to speak with me today. This recoredd statement concerns the collision you reported. Please state your full name for the record.

A: I'd rather just keep it to the facts, but that's fine. It's the driver's name on my license, you have it already.

Q: I understand. For the record, can you confirm you were driving the vehicle at the time of the accident?

A: Yes, I was driving my own car.

Q: Where were you headed when it happened?

A: I was in Katy, Texas, turning left off the main road into a shopping center. It was a regular weekday.

Q: Walk me through what you saw before the turn.

A: I stopped at the light, waited for the oncoming lanes to clear, and then the light turned green for my direction. I started the turn when I thought it was safe.

Q: What happened next?

A: A vehicle came through the intersection from the opposite direction and we collided on the front driver's side of my car. I didn't see it coming until right before impact.

Q: Did you or the other driver brake before contact?

A: I braked as soon as I saw the headlights, but there wasn't enough time to stop.

Q: Did you receive any medical attention after the collision?

A: Yes, I went to urgent care that same afternoon. They diagnosed a neck and back strain. I've been doing physical therapy since then.

Q: Are you still experiencing symptoms?

A: Yes, my neck is stiff, especially when I turn my head to check traffic, and my lower back aches after sitting for long periods.

Q: Is there anything else you want to add to your statement?

A: Only that I'm cooperating fully and I want this handled quickly so I can get back to work.

Q: Thank you. This concludes the recorded statement.
