Description of the accident (claimant's words)

I was making a left turn at an intersection in Katy, Texas, waiting for a gap in oncoming traffic, when another vehicle struck the side of my car. The impact pushed my vehicle sideways and jolted me hard against my seatbelt. Since the collision, I have had persistent stiffness in my neck and a sharp ache across my lower back, which has made it difficult to sit for long periods and to lift items at home. I have described the events the same way to the officer at the scene, to the other driver's insurer, and to my own agent, and I have no changes to add. I am the named driver on this policy, and I have reported the incident as soon as it happened. I am providing the medical records from my treating clinic and am willing to supply any further documentation the claims team requires.
