Officer's narrative

Driver 1 was traveling in the left-hand lane and began a left turn at an intersection in Katy, Texas, when the vehicle was struck on the driver's side by Driver 2, who was proceeding straight through the intersection. Driver 1 was operating the vehicle and a Passenger was seated in the front passenger seat. Both occupants were identified at the scene and confirmed by responding officers as being inside the vehicle at the time of impact. Driver 1 reported neck and back strain and was evaluated by emergency medical personnel before being transported for further care. The reported injuries are consistent with the type and force of a side impact of this kind. Officers reviewed scene photographs, which show damage to the driver's side panels and door that generally aligns with the described collision. No independent witnesses were located, and the account of the event rests on statements from the drivers and the Passenger. Officers found no indication of prior damage to the vehicle. Driver 1 is listed as the named insured on the vehicle's policy, which was confirmed at the scene.
