Claim Notes

Claim number:	C-1489
Claimant:	Destiny Smith
Adjuster:	Christopher Wong

January 29, 2025
First notice of loss came in from the claimant, who reports being hit while turning left at an intersection and says they were taken to hospital with a concussion. The claimant is not represented by a lawyer, and I have logged the account as given.

February 8, 2025
Spoke with the claimant by phone to go over the sequence of events. The desrciption of the collision matches what they first reported, and they were clear about where each vehicle was when contact happened.

March 9, 2025
Reviewed the ploice report, which confirms the claimant was in the vehicle at the time of the collision and that the other driver was turning across their path.

March 11, 2025
Took a recorded statement from the other driver. Their version of the turn and the point of impact lines up with the claimant's account.

April 2, 2025
Photos from the scene and the tow yard show damage concentrated on the driver side front and door, which is in line with the impact described.

April 9, 2025
Two independent witnesses gave statements that agree on the signal phase and the direction each vehicle was travelling.

April 28, 2025
Requested the claimant's medical records. The concussion diagnosis fits the kind and force of a side impact of this type, and the treating notes describe symptoms consistent with that diagnosis.

May 8, 2025
Checked the claimant's history and found no prior injury to the head or neck area on file. No earlier damage to the vehicle appears in our records or the photos taken at the scene.

May 12, 2025
Treatment followed a typical course, with regular follow-up visits that became less frequent as symptoms eased. The claimant reports steady improvement and has told the same account in every conversation so far.

June 2, 2025
Confirmed the policy was in force on the date of loss, the driver is named on the policy, and nothing in the file suggests the damage predates the coverage start.

June 28, 2025
Reviewed the repair estimate. Most of the listed damage matches the described impact, and the remaining items are benig checked against the photos.

July 25, 2025
File is in order for settlement review. No further questions for the claimant at this time, and the claim will move to the next stage once the final repair figures are received.

Recorded Statement

Claim number:	C-1489
Statement of:	Destiny Smith
Taken by:	Christopher Wong
Date:	January 11, 2025

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you were involved in. Do you understand that this call is being recorded?

A: Yes, I understand.

Q: Please state where the accident happened.

A: It was at an intersection in Pearland, Texas, where I was making a left turn.

Q: Walk me through what you were doing just before impact.

A: I was waiting for a gap in oncoming traffic. When it looked clear, I started turning left, and then a vehicle coming straight through the intersection hit the driver's side of my car.

Q: Did you see that vehicle before you started your turn?

A: I saw headlights further back, but I thought there was enough time to complete the turn. I misjudged the distance.

Q: Were you wearing a seatbelt?

A: Yes.

Q: How are you feeling now?

A: I've been having headaches, I feel foggy at times, and bright lights bother my eyes. My doctor said I have a concussion.

Q: Have you seen a medical provider since the collision?

A: Yes, I was taken to an emergency room that same day and I've had follow-up visits since then.

Q: Is there anything you would like to add or correct in your statement?

A: No, I think that covers it. I'm still recovering, so I may need to follow up on some things later.

Q: Thank you. This concludes the recorded statement.
