### Description of the accident (claimant's words)

I was making a left turn at an intersection in Pearland, Texas, when another vehcile struck the side of my car. The impact threw me against the door and my head hit the window frame. I was dazed afterward and was taken to be checked out, where I was diagnosed with a concussion. I have described the events the same way to the officer at the scene, to the medical staff, and to everyone I have spoken with since, and I have nothing to add or change. I am the named drievr on this policy and I am submitting this statement to support my claim for the injuries and damage resulting from the collision. I am still experiencing headaches and sensitivity to light, and I am following my doctor's instructions for recovery.
