Re: Claim C-1490 - Demand for settlement

Dear Claims Representative:

We write to present a settlement demand on behalf of our client, Brandon Allen, arising from the motor vehicle collision that occurred on 1 Apr 2023. Your insured's vehicle crossed into the opposing lane and struck our client's vehicle head-on. Although the impact occurred at a low rate of speed, the force transferred enough to cause our client immediate and ongoing harm.

Following the collision, our client was evaluated and diagnosed with cervical and lumbar strain. Symptoms include persistent neck stiffness, restricted range of motion, lower back pain, and headaches. Our client has attended a course of physical therapy and has been advised to limit lifting and prolonged driving while recovery continues. Treatment records and billing statements are enclosed for your review.

Liability in this matter is clear. The police report documents your insured's failrue to maintain control of the vehicle, and no evidence suggests our client contributed to the collision in any way.

Accordingly, we demand payment of $210,000.00 to resolve all bodily injury cliams against your insured. This demand will remain open for thirty days from the date of this letter. If we do not receive a satisfactory response within that period, we will file suit without further notice to your office.

We look forward to your prompt reply.
