Claim Notes

Claim number:	C-1492
Claimant:	Matthew Clark
Adjuster:	Christopher Wong

09/30/2023
First notice of loss received from the claimant describing a collision at an intersection while making a left turn. The claimant is not represented by an attorney and has been asked to provide photos and a written statement.

11/03/2023
Confirmed that the driver is named on the policy and that coverage was active at the time of the reported collision. Nothing in the policy file suggests any damage predates the coverage start.

11/14/2023
Reviewed photos supplied by the claimant. They show the rear quarter panel and bumper damage consistent with the described impact, and a few older scratches are visilbe that may predate this loss.

12/30/2023
Police report obtained. It confirms the claimant was in the vehicle at the scene and references a left-turn collision, though no independent witnesses were identified.

01/01/2024
Spoke with the claimant by phone. The account of how the collision happened matched the first notice of loss in every detail, including the sequence of the turn and the point of impact.

01/07/2024
Received medical records reporting a wrist fracture. The injury type and force implied by the collision are a good fit for this kind of impact. No prior injury to the same area is known from the claimant's history or available records.

01/13/2024
Treatment has continued for somewhat longer than is typical for this type of fracture. Follow-up notes are being requested to confirm the reasons for the extended care schedule.

02/26/2024
Repair estimate reviewed against the photos and the reported impact. The vehicle damage pattern lines up with the described collision, and the adjuster has noted the older scratches separately for the estimate.

05/06/2024
Claimant gave a second recorded statement that repeated the same account of the collision. File remains open pending the follow-up treatment notes and final review of the photos.

Recorded Statement

Claim number:	C-1492
Statement of:	Matthew Clark
Taken by:	Christopher Wong
Date:	10/03/2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Sugar Land, Texas. Please state your full name for the record.

A: I'd rather just give the facts, if that's okay. I'm the driver of the vehicle involved.

Q: That works. Can you describe where you were coming from and where you were headed when the collision happened?

A: I was driving home from a errand near the shopping center. I was heading toward my neighborhood and needed to turn left at the intersection with the traffic light.

Q: What was the signal showing when you approached the intersection?

A: It was green for my direction, but the left arrow had not turned on yet. I was waiting for a gap in the oncoming traffic before I went through.

Q: Tell me what happened next.

A: An oncoming vehicle came through while I was already partway into the turn. Its front end hit the driver's side of my car. I felt the impact and the airbags went off. I remember trying to brace myself against the steering wheel with my left hand.

Q: Did you have any injuries at the scene?

A: My left wrist was hutring badly right away. Paramedics checked me and I was taken to the hospital. I was told later that the wrsit was fractured.

Q: Has the wrist been treated since then?

A: Yes, it was set and put in a splint. I have a follow-up with a specialist and I'm still wearing the cast.

Q: Thank you. Is there anything you would like to add to your statement?

A: Only that I was careful and I believe the other driver should have yielded. That's all I have to say.

Q: Thank you for your cooperation. This concludes the statement.
