Claim Notes

Claim number:	C-1493
Claimant:	Thomas Jackson
Adjuster:	Valerie Rodriguez

04/01/2023
The claimant reported a low-speed head-on collision and a neck strain. The account was tkaen by phone and the claimant said they were not represented by a lawyer.

05/19/2023
The police report and two witnesses confirm the claimant was in the vehicle at the time of the impact. The other driver gave a statement that matches the claimant's account of how the collision happened.

07/17/2023
Photos from the scene and the repair estimate show damage consistent with the described impact. No earlier damage to the vehicle is known, and nothing in the file suggests the damage predates the start of coverage.

08/25/2023
The driver is named on the policy. The claimant repeated the same account of events in every conversation so far, with no changes in the details.

08/26/2023
The reported neck strain is a plausible injury for a crash of this type. The medical file shows a usual course of treatment that tapered off as the claimant improved. No earlier injury to the same area is known.

10/23/2023
Based on the photos, witness statements, police report and medical records reviewed, the claim is progressing normally. Next steps are to confirm final treatment costs and close the injury portion once the claimant reports full recovery.

Recorded Statement

Claim number:	C-1493
Statement of:	Thomas Jackson
Taken by:	Valerie Rodriguez
Date:	03/20/2023

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the collision you reported in Conroe, Texas. Please state your full name for the record.

A: I'd rather just give you the details of what happened, if that's okay.

Q: That's fine, but I do need your name on the recording for our file.

A: Understood. It's the policyholder's driver, the person in the vehicle at the time.

Q: Thank you. Can you describe where you were when the collision occurred?

A: I was driving on a two-lane road heading toward a shopping area. It was a clear afternoon and traffic was moderate.

Q: What happened just before the impact?

A: The other car drifted into my lane around a curve. I braked and steered to the right, but we still made contact nearly head on. It wasn't a hard hit, more of a jolt.

Q: What was your speed at the time?

A: Probably around 20 or 25 miles per hour. I wasn't going fast.

Q: Did either airbag deploy?

A: No, they did not.

Q: Did you go to a medical facility after the collision?

A: Yes, I was checked out the same day. My neck felt stiff and sore, and the doctor diagnosed a neck strain. I've been doing physical therapy since then.

Q: Have you had any prior neck or back complaints?

A: No, nothing serious. I had some stiffness years ago after lifting something, but it resolved on its own.

Q: Is there anything else you would like to add to your statement?

A: Only that I'm still having headaches and some trouble turnnig my head to the left. I'd like to keep my records updated for you.

Q: Thank you. This concludes the statement.
