Officer's narrative

Driver 1 was traveling southbound in the left lane of a two-lane road in Conroe, Texas, when the vehicle crossed the center line and struck the northbound vehicle operated by Driver 2 in a low-speed head-on collision. Driver 1 was the sole occupant of the vehicle at the time of impact, and this was confirmed by the responding officer, by two independent witnesses who stopped at the scene, and by Driver 2. Driver 1 reported neck strain and was evaluated by emergency medical personnel on scene, who noted that the complaint is consistent with the forward and rearward motion typical of a collision of this type. Both witnesses independently described the impact as occurring exactly as Driver 1 and Driver 2 later related it. Scene photographs show front-end damage to both vehicles that matches the direction and force of the reported impact. No prior damage to the vehicle was noted by the officer or disclosed by either party. Driver 1 is listed as the named insured on the policy covering the vehicle. No citations were issued at the scene, and the vehicles were towed from the roadway.
