Description of the accident (claimant's words)

I was driving through the intersection on a green light when a vehicle coming from my right failed to stop and struck the driver's side of my car. The impact spun my vehicle partway around and pushed it into the curb. I got out and felt stiffness in my neck right away, and by the next morning my lower back was sore as well. I was diagnosed with a neck and back strain and have been attending physical therapy sessions since. I have described the events the same way in every conversation I have had about the collision, including with the responding officer, my doctor, and the adjuster. I am the named driver on this policy and I have provided my insurance information and the other driver's details on this form.
