Claim Notes

Claim number:	C-1497
Claimant:	Matthew Reed
Adjuster:	Chelsea Hebert

May 3, 2025
Claim opened after the insured's policy-named driver reported a sidewsipe during a lane change on a multi-lane road. The claimant, who is not represented by counsel, was identified as a passenger in the vehicle at the time.

May 6, 2025
Police report and two independent witnesses place the claimant in the vehicle at the moment of impact. The other driver's account matches the claimant's description of how the collision happened.

May 19, 2025
Photos from the scene were received and show contact damage on the passenger side that lines up with the reported impact point. No prior damage to the vehicle appears in our records or the photos.

May 31, 2025
Vehicle inspection completed. The damage pattern is consistent with a sideswipe at the reported angle and speed, and nothing suggests the damage predtaes the start of coverage.

June 7, 2025
Claimant reported neck and back strain and was seen at an urgent care clinic the same day. Clinic notes describe pain and stiffness that fit the mechanism of this type of collision.

June 23, 2025
Medical records show no earlier injury to the neck or back. Claimant has not reported prior treatment to those areas, and nothing in the file contradicts that.

August 24, 2025
Claimant gave a follow-up statement adding a few minor details, such as the exact lane positions and the sound of contact. The core account of the event has not changed from the first report.

September 5, 2025
Treatment followed a typical course of physical therapy and home exercises. Pain reports have gradually decreased over the past several weeks as the claimant improved.

September 18, 2025
Treating provider's notes show steady progress with fewer visits needed as range of motion returned. Symptoms are consistent with the expected recovery timeline for soft tissue strain.

October 12, 2025
Reviewed the full file with the witness statements, scene photos, and police report. All sources agree on how the accident happened and on the claimant's presence in the vehicle.

October 17, 2025
Injury evaluation reviewed. The reported injury is plausible for a crash of this kind and the treatment is reasonable for the diagnosis.

November 29, 2025
Claim is ready for settlement review. Recommend the file proceed to evaluation of medical costs and vehicle repair estimate with no coverage issues identified.

Recorded Statement

Claim number:	C-1497
Statement of:	Matthew Reed
Taken by:	Chelsea Hebert
Date:	April 24, 2025

Q: Thank you for agreeing to give this recorded statement. Can you confirm you're cmofortable with us recording this call?

A: Yes, that's fine.

Q: Please describe where the accident happened.

A: It was on a multi-lane road in Katy, Texas, in the right lane heading toward the freeway on-ramp area. Traffic was moderate and moving steadily.

Q: What were you doing right before the collision?

A: I was changing lanes to the left because I needed to get over for a turn coming up. I checked my mirror, I saw the lane looked clear, and I signaled and started to move over.

Q: Did you see the other vehicle at any point before contact?

A: Not directly. I glanced at my left mirror and didn't see anything right next to me. Then I felt a hard bump on my left side and heard scraping metal. My car pushed to the right and I had to correct the steering.

Q: Did the other driver say anything at the scene?

A: They got out and said they had been in my blind spot and that they tried to swerve. We exchanged information and the police were called.

Q: Did you or anyone else require medical attention?

A: I was checked out at an urgent care clinic later that afternoon. My neck is stiff and sore, and my lower back has been aching since the impact. The doctor diagnosed a neck and back strain and gave me some medication and a referral for physical therapy.

Q: Are you currently stlil experiencing symptoms?

A: Yes, the stiffness is worse in the mornings and sitting for long periods makes my back hurt. I have an appointment for therapy next week.

Q: Is tehre anything else you think we should know?

A: Just that I'm cooperating fully and I have photos of both vehicles that I can send you.

Q: Thank you. That concludes the statement.

A: Okay, thank you.
