Description of the accident (claimant's words)

I was driving in the right-hand lane on a multi-lane road in Katy, Texas, when I signaled and began moving left to change lanes. As I merged, the vehicle in the next lane came alongside me and its side made contact with the side of my car, pushing my vehicle slightly toward the median before I could stop. Both vehicles pulled to the shoulder safely, and I exchanged information with the other driver. Since the incident I have felt stiffness and soreness in my neck and lower back, which I reported to a medical provider. Looking back on what I told the adjuster and the police, I have since remembered a few smaller pionts about the lane positions and how quickly things happened, but the core of my description has stayed the same from the start. I am the named driver on this policy and I am submitting this statement to support my claim.
