23 Oct 2023

Claim received for a rear-end collision at a signalized intersection. The insured's vehicle was struck from behind while stopped, and the claimant reports a wrist fracture from the impact. Claimant is represented by counsel, and all further contact will go through the attorney's office.

20 Nov 2023

Reviewed the police report, scene photos and written statements from two witnesses. All three describe the same sequence: the insured stopped at the light and the following vehicle made contact at moderate speed. The other driver confirmed the account by phone and admitted to following too closely.

15 Dec 2023

Rear bumper, trunk lid and tail light assembly damage on the insured vehicle is consistent with the described impact height and direction. Photos show no sign of older repairs or prior damage in the affected areas. Records confirm the policy was in force well before the loss, with no indication of earlier damage to the vehicle.

17 Dec 2023

Confirmed that the driver of the insured vehicle lives with the policyholder and is covered as a household member under the policy terms. Coverage question is closed. Position of the claimant within the vehicle at impact is not fully clear from the statements and photos, and counsel has been asked to clarify this.

17 Mar 2024

Medical records received through counsel show a wrist fracture treated with immobilization and follow-up visits. Treatment followed a typical course, and visit frequency tapered as the claimant improved. No prior injury to the same area appears in the records obtained.

30 Mar 2024

Claimant's account has stayed consistent across the first contact, recorded statement and follow-up conversation with counsel present. The injury description fits the kind and force of the collision. Reserve reviewed and file remains open pending the claimant's response on seating position and the final medical summary.

Q: Thank you for taking the time to speak with me today. This recorded statement concerns the rear-end collision you were involved in in Conroe, Texas. Please state your full name for the record.

A: I'd rather just give you the details of the accident. My name is on the claim form.

Q: That's fine, but I need it stated on the recording for our file. Could you confirm it?

A: Okay. It's the name on my policy paperwork.

Q: Thank you. Can you describe what happened as best you remember?

A: I was stopped at a traffic light on a main road in Conroe, waiting for the signal to change. The traffic had been moving slowly. Then I felt a hard jolt from behind and my car was pushed forward into the intersection.

Q: Were you able to see the vehicle that struck you before the impact?

A: Not really. I was looking ahead at the light. I thnik it was a pickup truck, but I only saw it in my mirror after it hit me.

Q: Did you stop at the light or were you still moving when you were hit?

A: I had come to a complete stop. My foot was on the brake.

Q: How did you feel immediately after the collision?

A: My chest hurt from the seatbelt and my right wrist felt wrong right away. I couldn't grip the steering wheel properly.

Q: Did you seek medical treatment?

A: Yes. An ambulance took me to the emergency room. They X-rayed the wrist and told me it was fractured. I've since been referred to an orthopedic specialist and I'm wearing a splint.

Q: Thank you. Is there anything else you think I should know about the accident?

A: Only that I'm still having trouble doing everyday things like typing and cooking. I'd like to know what happens next with the claim.

Q: I'll explain the next steps at the end of our call. Thank you for your cooperation.
