Claim Notes

Claim number:	C-1499
Claimant:	Annette Taylor
Adjuster:	Alison Sweeney

08/25/2023
First notice of loss received from the claimant reporting a low-speed head-on collision at a local intersection, with a complaint of back pain and a request to open an injury file. Claimant is unrepresented and was willing to provide a recorded statement.

09/03/2023
Reviewed the policy record and confirmed the driver is named on the policy and the coverage was in force at the time of loss. Assigned the file for vehicle damage inspection and injury review.

10/01/2023
Spoke with the other driver, who gave an account of the collision that matches the claimant's description of how it happened. Requested the responding officer's report.

11/05/2023
Police report received and confirms the claimant was in the vehicle at the scene. Two independent witnesses were identified and contacted; both describe the impact in terms consistent with the claimant's account.

12/11/2023
Photographs from the scene and from the vehicle were received and reviewed. The visible damage is largely in line with the impact described by all parties.

01/08/2024
Vehicle inspection completed. No earlier damage to the vehicle is known from prior claims or repair records, and nothing points to any damage predating the start of coverage.

01/16/2024
Recorded statement taken from the claimant. Account of the collision was consistent with the first notice of loss, and the claimant has repeated the same account in every conversation since.

01/27/2024
Medical records received for the initial emergency visit. Diagnosis is a back strain, which fits the kind and force of a low-speed frontal impact. No prior treatment to the same body area is known from available records.

02/04/2024
Claimant attended physical therapy on a standard schedule. Treatment notes show steady improvement, and the frequency of sessions has been reduced accordingly.

02/18/2024
Reviewed the injury file with the nurse reviewer, who agreed that the treatment course is typical for this type of injury and that the reported symptoms align with the mechanism of the collision.

03/13/2024
Claimant reports most symptoms have resolved and is near the end of the planned course of care. Follow-up with the treating provider is scheduled to confirm discharge.

04/11/2024
File reviewed and all key facts checked against the evidence gathered. Liability and injury appear consistent with the documented collision, and the file is ready for settlement evaluation.

Recorded Statement

Claim number:	C-1499
Statement of:	Annette Taylor
Taken by:	Alison Sweeney
Date:	08/26/2023

Q: Thanks for taking the time to talk with me today. This recording is for our claim file. Can you please state your full name for the record?

A: Sure. I'd rather keep my name off this one, if that's okay. You already have my claim number.

Q: That's fine. We'll reference the claim nmuber only. Can you walk me through where you were when the collision happened?

A: I was driving on a two-lane road in Katy, Texas, heading toward a shopping center. It was a normal weekday afternoon, pretty light traffic.

Q: What were you doing right before impact?

A: I had slowed down because the car ahead of me was turning. The other vehicle came over into my lane. I braked, but we still met almost head-on. It wasn't a hard hit, but it was enough to jolt me.

Q: Were you wearing your seatbelt?

A: Yes, I was.

Q: Did the airbags deploy?

A: No, they didn't. I just felt a hard shove forward and then back against the seat.

Q: Did you get out of the car at the scene?

A: I did, and I felt stiff right away. Within a few hours my lower back was really sore, and by the next morning it was hard to bend over or sit for long.

Q: Have you seen a medical provider since the accident?

A: Yes, I went to urgent care the same evening and then followed up with my family doctor. They diagnosed a back strain and gave me muscle relaxers and some physical tehrapy referrals.

Q: Is there anything else about the collision you think is important for the file?

A: Just that I'm trying to keep up with the therapy, and I'd appreciate a call back if you need the medical records. Thanks.

Q: Thank you. This concludes the statement.
