Officer's narrative

Driver 1 was traveling southbound in the left lane on a Katy, Texas roadway when the vehicle collided head-on with a northbound sedan opertaed by Driver 2. Both vehicles sustained front-end damage consistent with a low-speed impact, and the damage pattern matches the force described by the drivers at the scene. Driver 1 reported pain in the lower back and said the force of the impact pressed them firmly into the seat, which is consistent with the mechanism of the collision. Passenger was seated in the front right position and was observed exiting the vehicle with no visible difficulty, confirming their presence in the car at the time of the crash. Driver 2 stated that the collision occurred exactly as Driver 1 described, and two independent witnesses, who were stopped at a nearby signal, gave statements that agreed with that account. Scene photogarphs were taken and reviewed. Officers found no indication of prior damage to either vehicle. Driver 1 is listed as the named insured on the policy covering the vehicle involved.
