Description of the accident (claimant's words)

I was driving slowly through an intersection in Katy, Texas, when the car in front of me stopped short and I could not avoid a head-on impact. The collision was at low speed, but my body jerked forward and back against the seatbelt. Over the following hours I noticed a stiff, aching pain in my lower back that made it hard to sit up straight. When I went over the details of what happened with the adjuster, I filled in a few small pionts I had not mentioned at first, such as the position of the other vehicle's bumper, yet my core account of the collision has remained exactly the same. I am the named driver on this policy and I was operating the vehicle with the owner's permission at the time. I have attached my medical notes describing a back strain, and I am requesting coverage for the treatment and repairs needed as a result of this accident.
